RED TRAINING & STREAMLINING SOLUTIONS ... WELCOME!

Providing training and business development services & streamlining solutions across Australia

Welcome to *RED Training & Streamlining Solutions*. We are here to assist you and your people, resulting in enhanced business outcomes.

The inspiration behind RED was to combat the overly complicated training models, theories and methods that simply do not work in the 'real world' - for the individual or the organisation.

Most of us have witnessed organisations trapped in long, complicated processes which stifle the progress of its people and its own success.

RED's focus is on providing advice and solutions that make significant improvements in business results, people capability and engagement. RED develops and delivers training that works - and advice that makes a *real difference* by providing;

- *Realistic* training material and solutions;
- *Customised*, personal service; and
- *Objective* viewpoints on all opportunities and issues.

There are a range of areas in which RED can deliver, as shown below, and all programs are tailored to your business needs.

- Sales & Customer Service
- Group or Seminar Facilitation
- Team Building
- Change Project Management
- Interview Essentials (*group or one-on-one*)
- Organisational Leadership & Culture
- Time Management
- Workplace Induction Processes
- Innovation for Results
- Staff Survey Development & Delivery
- Presentation Skills
- Running Effective Team Meetings
- OHS, Risk Analysis & Manual Handling
- Coaching in the Workplace
- Communication in the Workplace
- Supervisory Skills
- Business Streamlining Solutions
- Recruitment & Selection

If you're seeking effective training and development solutions that work, contact *RED* now!

Best Regards,
